## Product Information

0002-000248

## Description

AVENO HLPD 22 is a detergent hydraulic oil and thus has a thorough network and cleaning effect. AVENO HLPD 22 is designed based on selected oils with additives to avoid corrosion, wear and friction. AVENO HLPD 22 additionally contains dispersing and detergent ingredients, which always ensure clean hydraulics. These additives loosen impurities and keep them suspended, enabling the dirt to be cleaned from the dirty hydraulic systems. The functional elements of a hydraulic system are therefore kept clean from sediment and adhesion. Seeping water is emulsified and ensures the operation of the hydraulic system remains trouble-free.

## Instructions for use

AVENO HLPD 22 is used in hydraulic systems, in agriculture, construction equipment, cement factories, foundries, electric multi-plate clutches, as a test oil, as a runin oil for aggregates and equipment, in textile machinery and in machine tools. AVENO HLPD 22 exceeds the requirements for hydraulic oils HLP according to DIN 51 524 Part 2 for hydraulics. \* Meets DIN and ISO specification, except for demulsibility which is not applicable for high detergency hydraulic oil.

- High resistance to aging
- Good viscosity-temperature characteristics
- Very stable and excellent viscosity and temperature behavior
- Excellent corrosion protection even when absorbing moisture
- Extensive protection against wear, corrosion and foaming
- Neutrality towards sealants
- Exceptionally good detergent and dispersant properties
- Contains no ash and no zinc
